

King Arthur Flour - Donation Request Form

We would love to support all charitable organizations but unfortunately we cannot possibly grant every request we receive. We have chosen therefore to focus our resources locally in our immediate geographic region (defined as roughly a 100-mile radius from Norwich, VT). The 100-mile choice is based on the local food movement. The efforts we'll support should include those focused on:

- **Food and Nutrition:** We support education about healthful eating and making good food choices, as well as efforts to end hunger OR
- **Sustainability:** We support efforts that positively influence our natural environment, and promote the conservation of resources and the development of renewable energy sources.

If your organization or event meets one of the criteria above and you have IRS 501(c)3 non-profit status, we encourage you to apply for a donation of product or a cash contribution.
